

AllTrain – NEWSLETTER

No. 2/2014 (August)

Dear Sir or Madam

The AllTrain consortium would like to inform you about the 1st AllTrain Workshop (“All-Hazard-Guide for Transport Infrastructure”) (www.alltrain-project.eu) in Bonn, Germany.

THE PROJECT

The project AllTrain – being funded by the European Commission DG General Home Affairs under the *Prevention, Preparedness and Consequence Management of Terrorism and other Security-related Risks* Program (CIPS) - aims to contribute to the development of a secure, effective and functional transport network across Europe by identifying and assessing all possible threats to transport infrastructures. By considering road and rail structures, as well as multi-modal transport hubs, the project accounts for the interconnectiveness of transport across Europe. Furthermore, the final assessment of transport infrastructure regarding various threats will be compiled into a guide for owners and operators of transport networks in order to enable them to obtain information on which of their infrastructures might potentially be susceptible to a specific threat and which specific threat might potentially have the largest impact on their structures.

1ST ALLTRAIN WORKSHOP – OPEN FOR REGISTRATION

The first AllTrain-Workshop will be held on the **23rd of October** in **Bonn**, Germany, at the Hotel Günnewig Residence Bonn.

The workshop is specifically aimed at experts as well as owners and operators who are interested in hazards and security issues relevant to transport infrastructure. The consortium will present recent results of the project and participants will have the opportunity for discussion in an informal atmosphere.

Preliminary Program:

- First project results
- Hazard identification and security threats to road and rail infrastructure
- Infrastructure categorization and susceptibility of infrastructure to specific hazards
- Assessment methodology
- Guide for owners and operators

If you want to register for the workshop you can use the registration form in the annex. A detailed program will follow soon.

For more information (reports, activities, etc.) please visit our project website under www.alltrain-project.eu.

In case of questions or if you like to unsubscribe to the AllTrain Newsletter, please write to alltrain@bast.de indicating your name, institution and email address.

With kind regards
The AllTrain Consortium
